SPECIAL FIRE-FIGHTING PROCEDURES: At high temperatures may release Carbon monoxide and Carbon dioxide. Wear protective clothing and NIOSH-approved self-contained apparatus operated in positive pressure mode.

Section 6 – ACCIDENTAL RELEASE MEASURES

IN CASE OF SPILL OR LEAK: Stop the leak, if possible. Ventilate the space involved. Use appropriate personal protection equipment. Dike spill with inert material (sand, earth, etc.) to prevent waterway contamination. Collect run-off and transfer to drums or tanks for later disposal. Consult with regulatory specialists to determine appropriate state or local reporting requirements, for assistance in waste characterization and/or hazardous waste disposal and other requirements listed in pertinent environmental permits.
